Movie Maker Project is sponsored by Community Action for Safe Teens through Media Power Youth based out of Manchester. They specialize in training youth about the effects of media and how we can use it to create a positive, effective message. The project has students create videos by using healthy choices. This project is open to any HBHS students; Cathy Cray will assist in getting students along with Monica Gallant. The program will be held at the Boys and Girls club in Milford on Saturday, December 17th and will be a full day retreat; training, media power and youth training skits will be given to help students in making the 5 minute videos. The videos will be used for educational purposes in the local schools, as well as on the CAST website, youtube, facebook, cable access channels, etc.

Monica asked for \$250.00 to help support this project; board approved monies from the STEAM account
